# IEC 1906 Award

Christopher J. Struck is a 2025 recipient of the IEC 1906 Award.

The IEC 1906 Award was established in commemoration of the founding of the IEC and honors technical experts around the world whose work is fundamental to the IEC and its mission of international standardization. The IEC 1906 Award recognizes exceptional recent achievements – a project or other specific action – contributing in a significant way to advancing the work of the IEC.

Christopher J. Struck is CEO and Chief Scientist of CJS Labs, a San Francisco, consulting firm specializing in electroacoustical product design and testing. He has held positions with Tymphany, Dolby Laboratories, GN Resound, and Brüel & Kjær. He is a Fellow and former Governor of the Audio Engineering Society and a Fellow and Past Standards Director of the Acoustical Society of America. He is a Senior Member of the IEEE, and a member of INCE and SMPTE.

He currently heads the US Delegations to IEC TC 29 – Electroacoustics and ISO TC 43 – Acoustics and is the Chair of ASA/ANSI SC1 – Acoustics and is active in numerous working groups in IEC, ISO, ANSI, IEEE, and AES. Mr. Struck is the author of many technical papers, application notes and articles. He has traveled throughout the world, providing training and lecturing on the topics of acoustics, transducers, signal processing, and measurement techniques.
